Essential Migration Path Checklist

Phase 1: Software Migration (Months 1-3)

Quick Wins (First 2-4 Weeks)

☐ Replace Chrome with Vivaldi or Librewolf

☐ Switch from Google Search to Perplexity or Brave Search

☐ Try Claude AI for assistance with your migration journey

☐ Change default search engine in your new browser

☐ Install Joplin for note-taking to document your journey

Email Migration (Months 2-3)

☐ Export contacts and important emails from Gmail/Outlook

☐ Set up Proton Mail account

☐ Create auto-reply directing contacts to your new email address

☐ Gradually update your email on important accounts

Phase 2: Hardware Transition (When Ready)

☐ Purchase a Minisforum HX99G (AMD Ryzen 9) with preinstalled Linux Mint

☐ Follow Linux Mint's beginner-friendly welcome guide

☐ Transfer your files using the built-in migration tools

☐ Replace WhatsApp with Signal for secure messaging
